SHOP NAME – *City Style*

➤ **Shop**

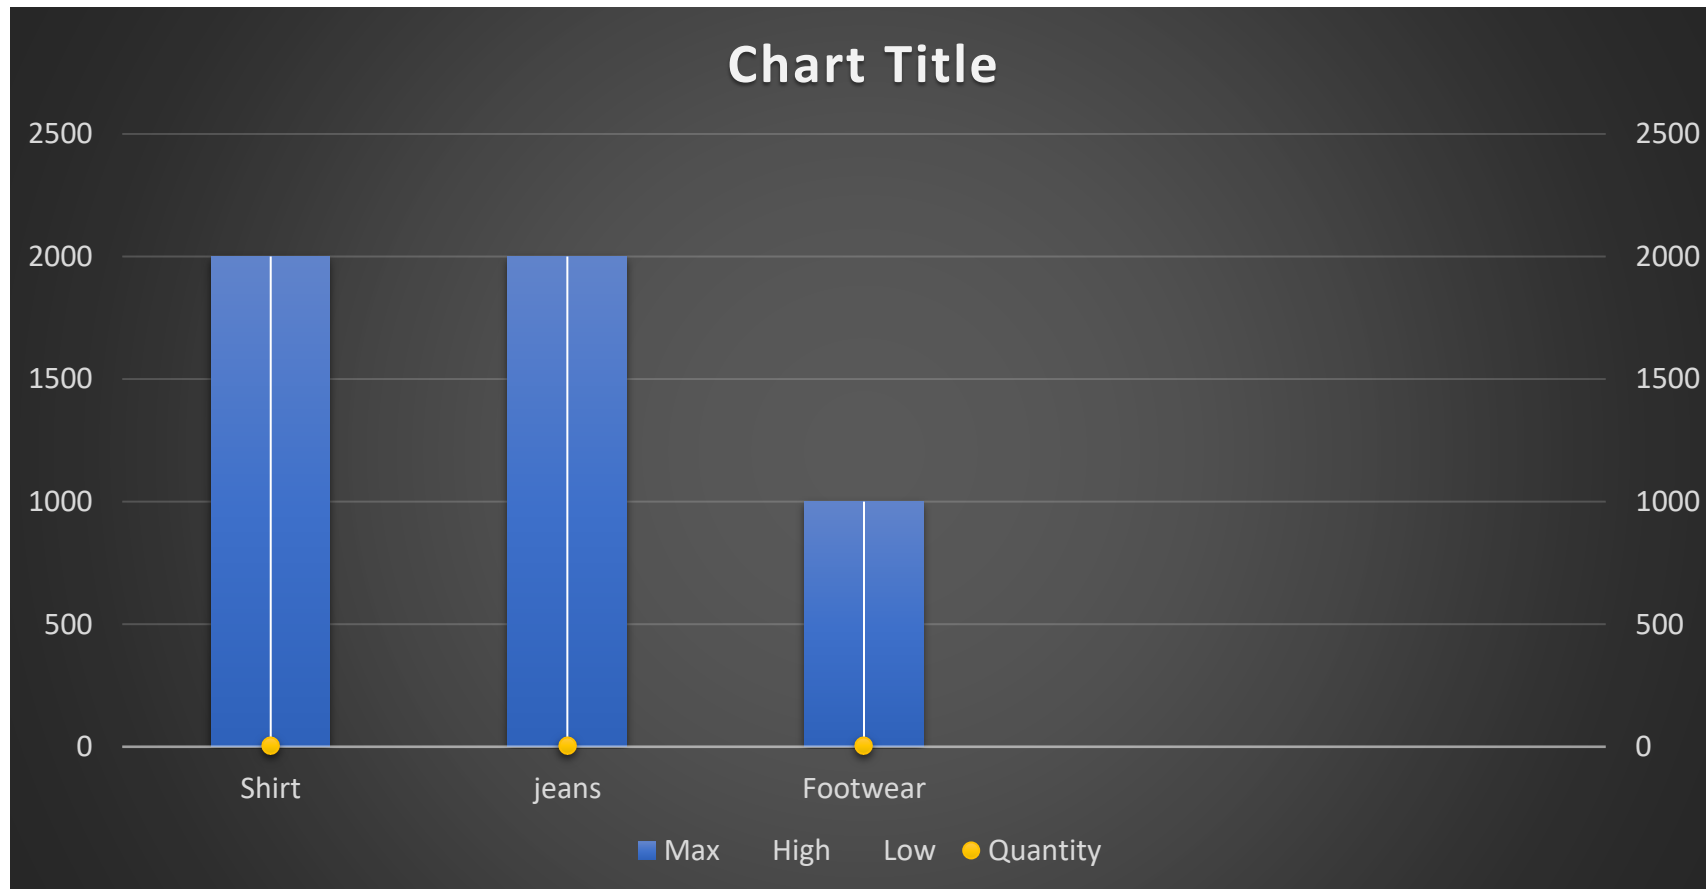

First we have found a shop for dress and footwear

➤ **Plan**

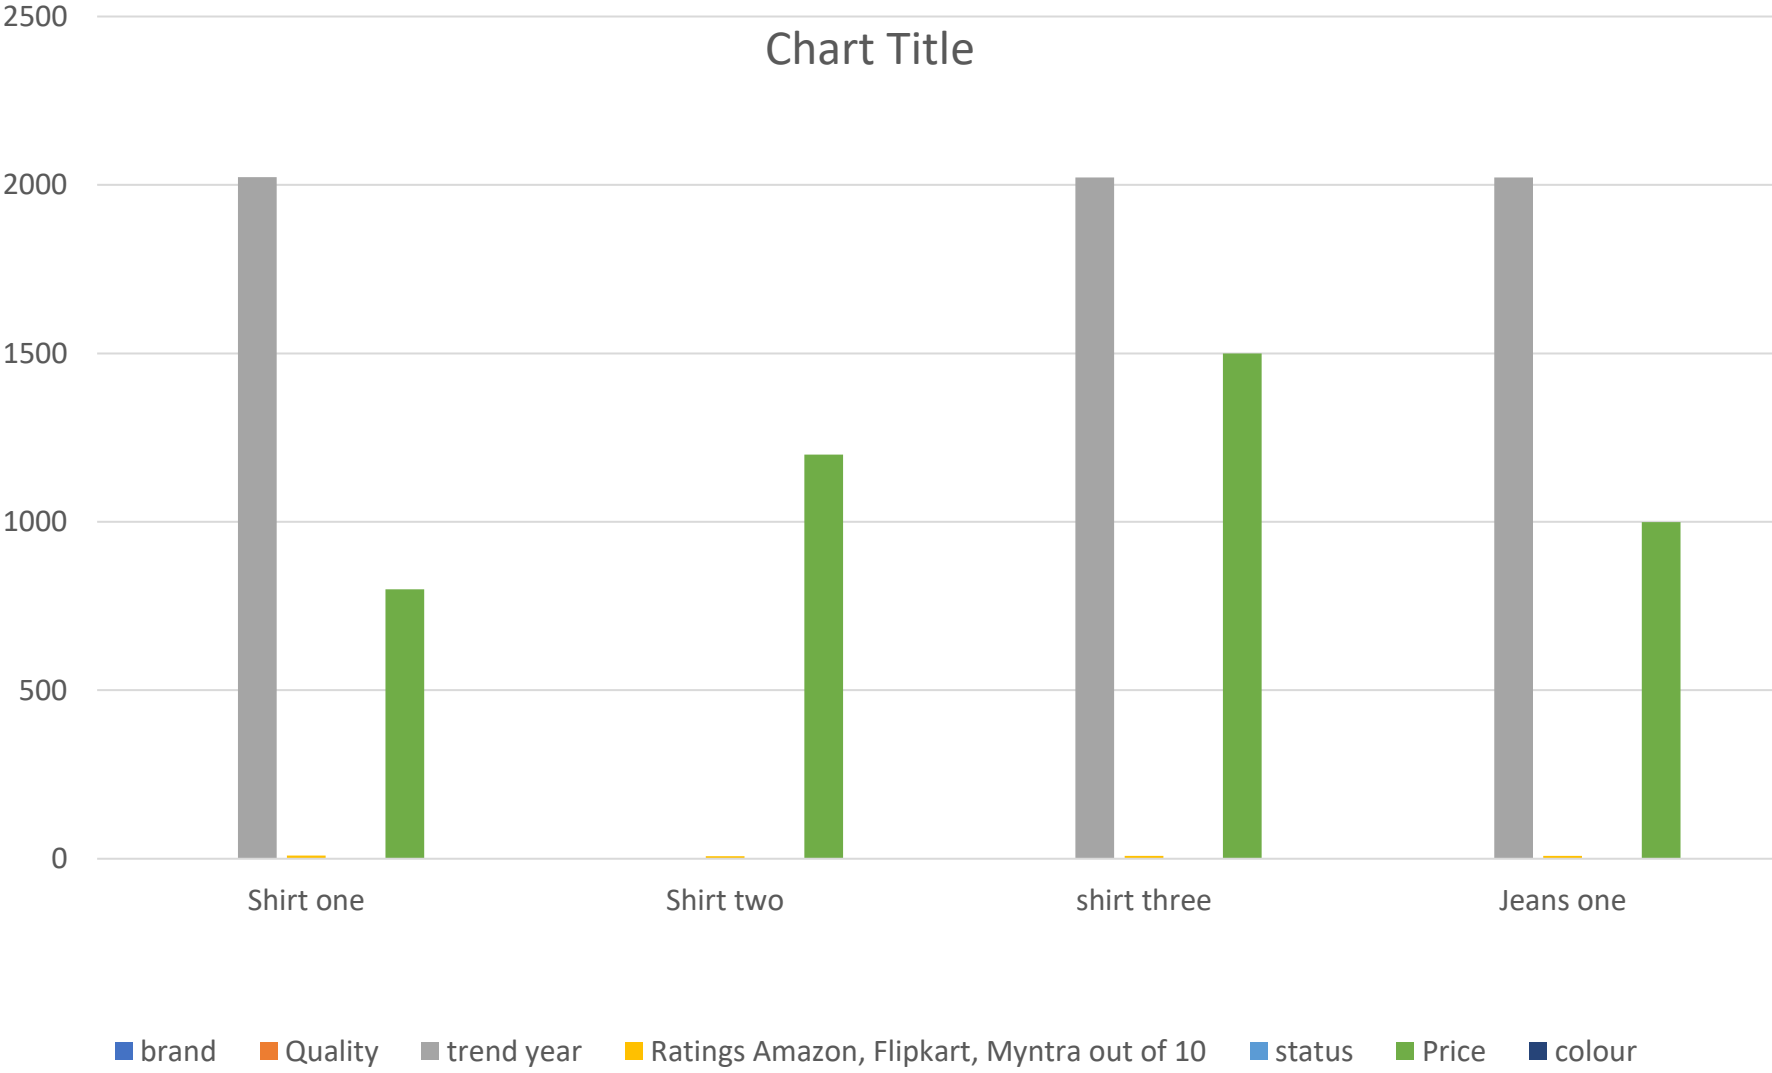

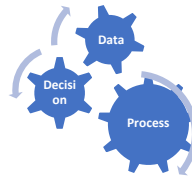

I am planning what should I buy that are available in the shop and quality of dresses and foot wear and is it really Cost effective and trending in the market or not

➤ **Prepare**

I am calculating in which item I am willing to spend money and how much in my budget

[illegible]

- **I have analyze that I will buy two shirts and 1 footwear**
- **And one jeans .**
- **I have checked that I will buy two out of that three brand I have checked for shirt I don't have navy blue & red shirt from peter England and jack and jones first I have checked I don't have modern formal shirt navy blue and a fancy red shirt and those are in current trends and good quality**
- **In jeans I have checked I already have formal so I checked casual and narrow**
- **In shoes I will buy one out of three sneakers and it is in trend and I need it for office purpose and for some othe purpose**
- **But I will buy all these three after discussing with the shopkeeper**

➤ **Share**

- I have shared with shop keeper that out of these brand I need shirt one
- For party and office purpose
- jeans formal and one casual and two jeans which I don't have
- and one shoe
- Shop keeper suggested me to buy one formal and one casual shirt from peter England and from jack jones it is in trend and it will match with two jeans black and blue colour and those are in trend
- And the one sneaker brown colour that is in trend and will match with my current age

ACT finally I have buied peter England navy blue
and jack Jonas red turtle shirt and two jeans road
star black and Highlander blue

And one brown sneaker from Bata
